

# Sensea.EC

## Addressable CIE (Control & Indicating Equipment) SENSEA.EC with touchscreen

CIE Sensea.EC is specifically designed for medium and big buildings that need Addressable fire detection system.

UGA integrated (type 1) allows to manage evacuation of one or several buildings as a part of type 1 alarm equipment.

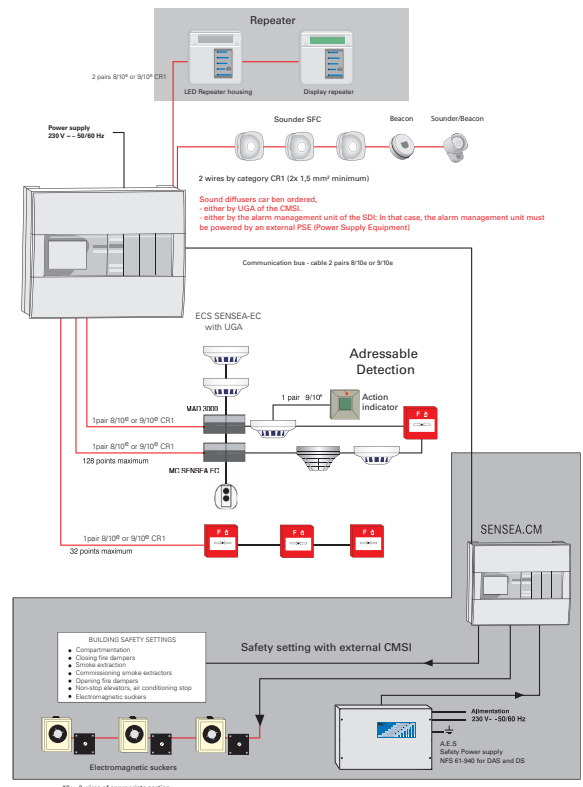

Sensea.EC exists in pre-equipped version (Sensea 256.EC) or in customized version configured as needed.

CIE pre-equipped and "ready to install" including:

- Main board and its touchscreen
- Terminal board
- Detection board (Loop Card) A3000 NUG31530 for :
  - 2 looped lines of 128 points each
  - or 4 open lines of 32 points each
- Power supply kit with functional independence for sounders (30W under 24V)
- Batteries
- UGA equipped with an alarm zone

### Technical Specification :

Housing	Back – Metal / Front – Plastic
Color	Light gray
Dimensions	482 x 400 x 212 mm
Ingress Protection	IP30 - IK03
Input / Class	230 V ~50/60 Hz – Class I
Supplied Batteries	2 water-proof lead batteries : 12 V / 12 Ah and 12 V / 4 Ah
Minimum autonomy	12 h standby + 5 min alarm
Number of board detection	Equipped with 1 detection board Sensea.EC A3000
Number of lines	2 looped lines of 128 points each or 4 open lines of 32 points each
Number of points	128 points in open lines (4 lines of 32 points) or 256 points in looped lines (2 lines of 128 points)
Power output of sounders	24 V / 30 W (2 starting points available)

Code	Référence	Désignation
NUG31500	Sensea256.EC	Sensea.EC évolutif équipé : 1 detection board 256 points – UGA 1 alarm zone – Simple power supply kit – batteries
NUG31521		Sensea Box 1 unit
NUG31523		Sensea Box 3 units
