

# TC5

Metal Touch Keypad  
RFID Card access Control

## Specifications:

|                       |                    |
|-----------------------|--------------------|
| Model                 | TC5                |
| Card Type             | EM/Mifare          |
| User Capacity         | 2,000              |
| Wiegand               | Input&Output       |
| Door Open Delay       | 0-99S              |
| Operating Voltage     | 12-24V             |
| Operating Current     | ≤100mA             |
| Lock Current          | 3A                 |
| Static Current        | 30mA               |
| IP Rate               | IP65/IP68 Optional |
| Working Temperature   | -40~60℃            |
| Working Humidity      | 10~90%             |
| Card Working Distance | 3-6cm              |
| Dimension             | 135x48x24mm        |
